Course Descriptions

(ICS-300): Intermediate ICS for Expanding Events
This is a 16-hour classroom-based course designed to provide multi-discipline or multi-jurisdiction course intended for front-line personnel with supervisory responsibilities, such as the incident commander or planning section chief. As an all-hazards Incident Command System course, the three-day curriculum consists of several modules that include instruction in general principles associated with incident command, along with various tabletop exercises that allow students to put this knowledge to practical use.
Prerequisites: ICS-100, ICS-200 and IS-700

(ICS-400): Advanced ICS for Command and General Staff, Complex Incidents and MACS
This is an 8-hour classroom based course designed to provide training on resources for personnel who require advanced application of the Incident Command System (ICS). Course topics include explaining how major accidents engender special management challenges, as well as explaining how circumstances in which multi-agency coordination systems are established. The target audience for this course is senior personnel who are expected to perform in a management capacity in an Area Command
or Multi-agency Coordination Entity.
Prerequisites: ICS-100, ICS-200, ICS-300, and IS-700
