# 1.0 INTRODUCTION

## 1.1 Purpose and Scope

The District of Columbia (DC) Government through the DC Homeland Security and Emergency Management Agency (HSEMA) implements the District Heat Emergency Plan when a heat emergency occurs and the National Weather Service (NWS) issues an “extreme heat warning” for DC. The District Heat Emergency Plan provides information on the District operations to aid all constituents, particularly vulnerable populations with health issues, the homeless, and visitors to the city.

On days when the “heat index” a measurement of the air temperature in relation to the relative humidity, used as an indicator of the perceived temperature, or temperature reaches 95 degrees, the DC Government will activate Cooling Centers. The Cooling Centers will be activated in publically accessible government facilities, homeless shelters, and senior citizen wellness centers, and will be open until 6:00 p.m., or until a time specified by the facilities below. HSEMA, in conjunction with the DC Department of Health (DOH), will also disseminate emergency public information to the public through the DC webpage at [www.dc.gov](http://www.dc.gov).

## 1.2 Illegal Use of Fire Hydrants

The Executive Office of the Mayor strictly prohibits the activation or opening of fire hydrants anywhere in the District of Columbia for the purpose of street showering without prior consent from the Mayor or City Administrator. Unauthorized use of a fire hydrant can hamper firefighting capabilities and tampering with a fire hydrant can cause personal injury, damage to the hydrant or hydrant nozzle, and underground pipe lines in the water distribution system.
